

SCIENCE LABORATORY SAFETY RULES

The science laboratory is an enjoyable, exciting place to work and learn. It must also be a safe place. To ensure the safety of everyone, proper conduct, safety rules and teacher instructions must be followed at all times.

Please read the following rules and check each one you agree to:

- I will always get teacher permission before beginning any lab activity.
- I will never run, push, or fool around in the lab.
- I will always wear safety goggles and any other safety clothing as instructed by the teacher.
- I will inform the teacher of any allergies or special medical conditions.
- I will always use care and follow teacher instructions when working with chemicals and unknown substances in the lab.
- I will not touch any unknown substance or equipment without teacher permission.
- I will never taste any substance in the lab. I will follow teacher instructions for smelling or touching any material or substance.
- I will be careful and act properly with laboratory equipment. This means:
 - I will report any chipped or cracked glassware. I will report any glass breakage to the teacher immediately.
 - I will learn the location and proper use of laboratory safety equipment.
- I will always report any accident, hazards or spills to the teacher immediately.
- I will keep my work area clean, uncluttered and organized.
